**Battery and Energy
Management Solutions**

BT910

New 6V and 12V battery tester with printer and color TFT-LCD display.

Highlight of BT910

TFT-LCD Display

Improved user interface.
Excellent language support.

Companion PC Software

Great for test report storage,
review, and management.

Firmware Update

Ready for new features and
future battery technologies.

6/12V Battery Test

6/12V Battery Test

Support most 6V and 12V lead-acid batteries.

12/24V System Test

12/24V System Test

A comprehensive test of the
starting and charging system.

Built-in Printer

Print test result right on the
tester.

Brand New PC Software

The screenshot displays the 'Battery Management System' software interface. On the left, a sidebar contains navigation buttons: 'Download Test Result', 'View Test Result', 'Delete Test Result', and 'Update Firmware'. The main window shows a 'Battery Test' section with a search bar and a table of test results. The table includes columns for 'Test Information', 'Test Time', 'Test Type', 'Result', 'System Voltage Channel', and 'Battery Type'. A physical DHC BT910 battery tester is shown in the foreground, connected to the software.

| Select All | Test Information | Test Time | Test Type | Result | System Voltage Channel | Battery Type |
|--------------------------|------------------|---------------------|--------------|-----------------|------------------------|----------------|
| <input type="checkbox"/> | | 2024-11-27 23:21:57 | Battery Test | GOOD & PASS | 12V | FLOODED |

| <input type="checkbox"/> | | 2024-10-21 10:03:23 | Battery Test | BAD & REPLACE | 12V | AGM FLAT PLATE |

Brand New User Interface

Buttons and Icons are arranged in a clear and easy to understand manner.

Powerful Search Tool

Test data can be searched with keywords.

Multi-Language Support

Supports the same language options as the BT910.

Export Data for Research

Test data can be exported as .csv or .xlsx file for further research.

Specification

BT910 – Specification Sheet

| | |
|------------------------|---|
| Application | 6V and 12V Battery Test 12V Start-Stop Battery Test 12V and 24V Starting and Charging System Test |
| CCA Range | 25 to 2,000 CCA/SAE |
| Supported Battery Type | Flooded, EFB, AGM Flat Plate, AGM Spiral, GEL |
| Supported Rating | CCA/SAE, EN, EN2, IEC, JIS, DIN, CA/MCA |
| Clamp-Cable Set | 0.8m (approx. 1.9ft) |
| USB Interface | USB Type-C |
| PC Software Support | Yes (Test Result Review and Management, Firmware Update) |

| | |
|---------------------------------------|---|
| Firmware Update | Yes |
| Display | TFT-LCD |
| Printer | 2" Easy-Load Thermal Printer (with DIY information) |
| Internal Battery | 6 x AA Battery |
| Input Device | Hardware Buttons (Up/Down/Enter) |
| Dimension (L x W x H, approximate) | 249 x 103 x 78 mm (approx. 9.8 x 4 x 3 inches) |
| Certification | CE and UKCA |
| Operating Languages | English, French, German, Spanish, Italian, Portuguese, Dutch, Polish, Turkish, Chinese (Traditional & Simplified) |

BT910 vs. BT900

| | BT910 | BT900 |
|--------------------------------------|---|---|
| Main Feature | 6V and 12V Battery Test 12V and 24V System Test | 12V Battery Test 12V and 24V System Test |
| Battery Type | Flooded, EFB, AGM Flat Plate, AGM Spiral, GEL | Flooded, EFB, AGM Flat Plate, AGM Spiral, GEL |
| Rating | CCA/SAE, EN, EN2, IEC, JIS, DIN, CA/MCA | CCA/SAE, EN, IEC, JIS, DIN, CA/MCA |
| CCA Range | 25 to 2,000CCA | 40 to 2,000CCA |
| Display | TFT-LCD (colored) | B&W LCD (with backlight) |
| Printer | 2-inch Easy-Load Thermal Printer | 2-inch Easy-Load Thermal Printer |
| Firmware Update | Supported | N/A |
| Test Result Management System | DHC PC Software | N/A |
| USB Connection | USB Type-C | N/A |
| Operating Language | English, French, German, Spanish, Italian, Portuguese, Dutch, Polish, Turkish, Chinese (Traditional & Simplified) | English, French, German, Spanish, Italian, Portuguese |
